Patrick and David

THANK YOU TO OUR KARST FRIENDS:

WATER PROTECTORS FUND .ORG

Launched by WVWA and TESPAs to empower ongoing work and defend against threats to our karst aquifers.

- **Science** monitoring and research toward sustainable water management solutions
- **Education** campaigns to engage landowners, developers, and decision makers
- **Legal Defense** to protect water quality and availability
- **Policy Development** through coalition building, collaboration, science-based policy and advocacy
