Date Received	Commentor	Correspondence Type	Comments Submitted Electronically
07/04/2022 3:34 PM	BECKER,TERESA	To Be Determined	Please adopt a rule to protect our pristine streams. By allowing wastewater discharge, as I understand it, can increase phosphorus levels, which can cause algae bloom and other pollution. This is just one of many reasons, like recreation, tourism, etc. to protect the last remaining of our state's pristine streams. Please take care of and be a good steward of the beautiful Hill Country and its assets. Best regards, Teresa Becker
06/22/2022 5:30 PM	ALLEN,MAUDE	To Be Determined	Please do not allow business/ cities to dump treated wastewater into our streams and rivers. It is hard enough to keep them clean. We don't need any more things polluting our waterways. Our natural resources are under duress. Please don't allow them to be degraded more.
06/22/2022 4:51 PM	MULVIHILL,HENRY	To Be Determined	SAVE THEM ALL! Texas pristine streams must be preserved. NORTHSANGABRIELALLIANCE.ORG
06/11/2022 8:53 PM	MELLOR,JIM	Comment - Written English	Please prevent the few remaining pristine streams in Texas from receiving discharge permits. There are many other ways -good ways- that we can handle this. Like zero-discharge alternatives. If we can protect these last remaining pristine streams, we can keep our lively tourism business, the hunters, fishermen, hikers and campers coming to our regions that desperately need the income. Let's not be short sighted here. Please prohibit discharges before we lose the last few streams. Thank you.
05/03/2022 4:19 PM	WICKES,PHILIP	Comment - Written English	I urge you to accept the pristine streams petition. I am an LCRA water monitor. I take water samples and analyze them from the Pedernales river, Flat creek and south grape creek. Water quality is important for pristine streams to thrive
